Inmate Death at FCI Englewood

WASHINGTON, D.C.: On Wednesday, November 25, 2020, inmate Larry Harris tested positive for COVID-19 at the Federal Correctional Institution (FCI) Englewood in Littleton, Colorado. Institution medical staff immediately placed him in isolation and provided treatment. On Friday, December 11, 2020, in accordance with Centers for Disease Control and Prevention (CDC) guidelines, he was converted to a status of recovered following the completion of medical isolation and presenting with no symptoms.

On Monday, May 3, 2021, Mr. Harris began having a seizure and went in to cardiac arrest. Responding staff immediately initiated life-saving measures. Staff requested emergency medical services (EMS) and life-saving efforts continued. Subsequently, Mr. Harris, who had long-term, pre-existing medical conditions which the CDC lists as risk factors for developing more severe COVID-19 disease, was pronounced deceased by EMS personnel.

Mr. Harris was a 74-year-old male who was sentenced in the District of Nebraska to a 46-month sentence for Use of Interstate facility to Transmit Information about a Minor. He had been in custody at FCI Englewood since August 4, 2020.

FCI Englewood is a low security facility that currently houses 856 male offenders.

The Bureau of Prisons will continue to provide daily updates and information on actions related to COVID-19 at www.bop.gov/coronavirus/index.jsp.
